U.S. Letter

8.5" wide x 11" high – minimum page count of 24 pages

Additional Options:

Book Distribution Package Special (\$99.95)

Registration Includes:

- You will be registered as the publisher.
- A single, unique ISBN which you should allocate to a single, available book title. The ISBN should never be re-used. The ISBN is the property of the registered publisher and as such is non-transferable.
- Bibliographic data on your book will be fed by the publisher to major international bibliographic databases and available to booksellers. At the booksellers' discretion, your book may be made available for sale online or in bookstores.
- A listing in a wholesaler's catalog, giving you access to online retailers such as Amazon.com and Barnes & Noble.com.

Note: Only "U.S. Letter" and "Large Square" Soft Cover Formats can take advantage of this inexpensive distribution package. Many publishers charge many times this price for this same service.

Remember! Your book does not require any kind of distribution package to be sold directly from the publisher's website. Just give your customers the web address of where your book is located on the publisher's website and they can order it from there.
